APPENDICES

APPENDIX A – STANDARD DETAILS & SAMPLE TEST REPORT FORMS

NOTE: Table of Contents for the NOSD standard details & sample test forms is included after the Appendix A cover sheet.

APPENDIX B - Standard Construction Notes

APPENDIX C - Utility Companies and Agencies

APPENDIX D - Standard Easement Forms, Etc.

APPENDIX E - Sample Insurance Certificates

APPENDIX F - Adopting Ordinance & Resolutions

**APPENDIX G – Construction Drawing Review, Sewer System Construction Permit,
Construction Requirements & Procedures**

-Section 01300 – Construction Submittals

**APPENDIX H – Single Lot Private Sewer Pump Station Standards (*where allowed on
case-by-case basis*)**

PREFACE

These design standards (PWDS) have been developed by the Netarts Oceanside Sanitary District (NOSD) to provide a uniform set of standards for public improvements. The intent of these standards is to provide guidelines for the construction of public facilities that will provide an adequate service level for the present as well as for future development. The format has been kept brief and no attempt has been made to cover all possible situations or to provide lengthy explanations.

These design standards (PWDS) are intended to be used in conjunction with the NOSD's PWCS - Public Works Construction Standards (*ie. the Oregon Standard Specifications for Construction – OSSC (ODOT/APWA), most recent edition except as otherwise noted herein*). The PWCS are subject to the material, equipment and other provisions specified in these PWDS. In the event of discrepancies between the requirements in these PWDS and the Public Works Construction Standards (PWCS) or between the text of these PWDS and the NOSD standard details, the more stringent requirements as determined by the NOSD Superintendent shall apply.

Copies of these PWDS can be obtained from Netarts Oceanside Sanitary District (NOSD), Oregon, 1755 Cape Meares Loop Rd. W., Tillamook, OR 97141.

It is anticipated that revisions to the design standards will be made from time to time. The date appearing on the title page is the date of latest revision of the text portion of the standards. The date appearing on the details is the date of latest revision of that particular detail.
